**Update: Northern Healthy Communities funding awarded**

December 14, 2022

Ksan Society is pleased to share the awarding of \$420,000 from the Northern Healthy Communities Fund, a Northern Development Initiative Trust capital funding program intended to support Northern communities adjust to the economic and social changes resulting from major economic development projects in the region.

This grant will fund the ongoing renovations at Ksan Society's new shelter location on Tetrault St., where electrical, structural, and aesthetic renovations are ongoing. Whereas indoor renovations include the addition of basic amenities such as washrooms and laundry, exterior work includes the construction of a privacy fence and buffer area along neighbouring properties, as well as the installation of security cameras and lighting.

As economic development progresses in the Northwest, Ksan Society is experiencing an ever-increasing demand for emergency and transitional housing services. We are grateful to the Northern Development Initiative Trustees for recognizing the importance of Ksan Society services in the community.
